

WILD ENTHUSIASM OVER ROOSEVELT

An Unbounded Welcome
Given Teddy on His
New York Trip.

BRYAN IN NEW JERSEY

Nebraskan Is Firm in the Be-
lief That He Will De-
feat McKinley

MADE 19 TALKS YESTERDAY

Utica, N. Y., Oct. 25.—Candidate Roosevelt will visit Watertown, Oswego and Auburn today. At Syracuse he is scheduled for a night speech. Intermediate towns will be given a chance to shout for the republican spell binder. A large crowd saw him depart at eight o'clock this morning, cheering lustily. The governor was well pleased with last night's reception and altogether satisfied with the reception accorded him by the people of his own state. He hopes that his voice will be in good condition for his speech tomorrow night at New York when the great blow-out occurs.

Several New Features.

Governor Roosevelt's third day of campaigning in New York state embraced several new features. At nearly every place at which he stopped enroute there were huge crowds of people. In this city last night instead of speech making the day's work ended with a review of an immense demonstration. This was entirely agreeable to Governor Roosevelt, who during the day had made nine speeches some of them long ones. The second feature of the day's trip was the meeting here of Governor Roosevelt, Senator Depew and Comptroller of the Currency Eckels.

Bryan Believes He Will Win.

Philadelphia, Pa., Oct. 25.—Wm. J. Bryan arrived here at nine thirty this morning and was greeted by a tremendous crowd at the Broad Street station. He was driven to the hotel LaFayette where a brief reception was held. Thousands followed him about wherever he went. At the office of a local newspaper the candidate shook hands with the employees and then the New Jersey committee took charge of the candidate and escorted him across the Delaware river to Washington Park where he made the first address in New Jersey to ten thousand people.

On his way up from Wilmington this morning former Congressman Springer said that Bryan now has the firm belief that he will defeat McKinley.

Bryan Spoke 19 Times Yesterday.

Wilmington, Del., Oct. 25.—Mr. Bryan made two speeches of some length in this city last night, after having made seventeen other addresses during the day.

The audiences of the day were, as a rule, fair sized, and a majority of them were thoroughly appreciative. A few of the stopping places in Delaware had an apparent lack of enthusiasm.

The first of Mr. Bryan's night meetings in this city was held in a big tent, and while the meeting began much earlier, Mr. Bryan did not appear until nine o'clock. He had a long and busy day, and found it necessary to take an unusually prolonged rest after his arrival in this city. The tent was crowded to suffocation, and there were far more people on the outside of the tent than there were on the inside of the canvas.

The crowd yelled itself hoarse when Bryan entered and some time was required to restore quiet.

CAL. BROUGHTON TO GET PRIZE MONEY

Assured of His \$600 Reward for Cap-
turing the Three Footville
Postoffice Robbers.

Marshal Cal. Broughton's mind has been made easy concerning his prize money for capturing the three Footville postoffice robbers. It appeared that the United States has a standing reward of \$200 a head for criminals who violate the United States laws or break into United States property. The only condition is that the men must be held and tried before a United States court. The three men arrested at Evansville have been held here and will come up for examination tomorrow, but instead of holding the examination, the men will be turned over to the federal officers. They will then be taken before United States Court Commissioner Patton and examined. In this way the \$600 coming to the popular Evansville marshal will be paid.

It is safe to say that when the United States officers come down tomorrow to get their prisoners they will have taken the precaution to have their warrants made out and in their pockets instead of at home as they did the last time they

had occasion to use them here. The men are now held in the Rock county jail.

ENGLAND MAY APOLOGIZE

For the Insult Offered by Psyche's
Captain.

Washington, Oct. 24.—The state, treasury and war department officials are awaiting the official account of the exploit of the British cruiser Psyche, which entered New York harbor, failed to salute, ignored quarantine and pilot laws and took away a British subject. Pending official reports the officials will not discuss the matter except in an apologetic tone. They say that the press reports are conflicting, as some reports allege that the Psyche had official permission to pass the quarantine station.

The failure to salute is another matter. In 1892 Capt. Evans went into Valparaiso and the forts did not salute. Captain Evans, commanding the Yorktown, notified the Chilean government that, if it did not salute, he would see that it did. The Chilean forts saluted.

Captain Sigsbee recalled the incident of Rear Admiral Schley, who ran past the quarantine at Sewell's point up to Norfolk. The government promptly called for explanations, which were made.

WILLIAMS HOME FROM SOUTH DAKOTA

Well Known Local Resident Says
That Everybody is for McKin-
ley Out There.

E. S. Williams, residing in Forest Park, is home from an extended trip to Watertown, S. D., and vicinity, where he has land interests. While in Dakota Mr. Williams took special pains to look into the political question that is now before the people.

At Watertown he attended a rousing rally given in honor of Senator Hanna's visit. Six thousand people attended the rally, which proved to be the greatest held in Watertown in years. The parade was a mile in length. One of the parade features was women riding horse back. Senator Hanna was cheered repeatedly as he reviewed the parade from his hotel. Mr. Williams says that everybody is for McKinley in South Dakota this year, and that the people think that prosperity there the past four years will bear repeating.

WOMAN FAILED TO PROSECUTE CASE

Nels Nelson Was Discharged When His
Case Was Called This
Morning.

When the case of the State of Wisconsin vs. Nels Nelson was called in the Rock County municipal court this morning Judge Field dismissed the same for the want of prosecution. Nelson was arrested on the charge of using abusive language, the complaining witness being one Annie M. Carey. This morning the complaining witness failed to put in an appearance.

Nelson resides near this city on a farm and is well known to many local merchants. The case was not a strong one, there being several sides to the story.

VALUATION FIXED AT \$18,000,000

Equalization Committee Held Busy
Session Today at the Court
House.

The county committee on equalization held its annual meeting in the office of County Clerk F. P. Starr today. Following is the committee: Chairman—A. Eager.

First District—G. R. Barker, J. J. Cunningham, F. Rehfeld.

Second District—W. H. Gray, P. M. Ellinger.

Third District—H. Cleophas, A. C. Powers, J. H. McElroy.

After a lengthy and somewhat heated debate the committee decided that for the coming year the assessed valuation of Rock County should remain the same—\$18,000,000.

Chairman Eager's report will be read at the coming meeting of the county board to be held next month.

ABUSE AND KILL A WOMAN FOR \$4.50

Wife of a Truck Gardner Near Indiana-
polis, Found Dead On the River
Bank.

Indianapolis, Ind., Oct. 25.—Leola Wilhelm, the wife of a truck gardener, was found murdered this morning on the bank of the White River. She was strangled after being outraged and robbed. John Wilhelm, her husband, John Maladay and Felix Robbins were arrested. The police theory is that the men murdered the woman for four and one-half dollars which she had when she left home.

Mrs. Elizabeth Campbell and daughter of Milwaukee, and Mr. John Canary were in the city being called here by the death of the late Mrs. M. Campbell.

GENERAL BRYANT SEES NO FAILURE

CHAIRMAN FORECASTS RESULT
IN WISCONSIN.

Battle Fought as if There Was
Greatest Danger of Defeat—Sure
That McKinley and La Follette's
Pluralities Will Exceed 100,000—
Harmony Among Republicans.

Milwaukee, Wis., Oct. 25.—General Bryant, chairman of the republican state central committee, is not much of a talker when it comes to saying anything about the progress of the campaign in Wisconsin, and he never brags or does anything that would warrant anyone in calling him a rainbow chaser. But General Bryant talked freely about the situation today in Wisconsin. He said:

"Plurality to Be Over 100,000."

"While it has been understood by every one that Wisconsin is a republican state without a shadow of doubt, we have carried on the work on the assumption that it is never good policy to take anything for granted in politics. The democrats are the same old enemy every year, and it is necessary to be on guard all of the time, even in Wisconsin."

"There has been a coming together of the old factions that seems to me to mean obliteration of what remained at the outset of the campaign of the bitter feeling existing between what was known as the stalwarts and the La Folletteites. Men who were known as the chief opponents of Mr. La Follette, but who never had aught against him as man or citizen, and who fought him because of disagreements arising on the questions of party policy and management have taken the stump to help swell his majority next month. Harmony is complete."

"There has been no hanging back on the part of anyone, and if there is any disaffection it is so slight that we cannot see it from headquarters. I believe that both McKinley and La Follette will be elected by a plurality exceeding by several thousands that of 1896, which means that they will win by over 100,000."

"This committee alone has had in the field about fifty speakers, and we have had the assistance of twenty-five others who were sent into the state by the national and congressional committees."

"Our committee and its working organization is practically new, there being but six of the old members on the committee, but I want to say that we have had the hearty support of all, with no sign of any effort to handicap us. The harmony predicted two months ago soon developed, and has continued throughout."

GERMAN MARINES ATTACK BOXERS

Two Hundred of the Celestials Killed
In a Battle Near Kaumf—German
Losses Slight.

Shanghai, Oct. 25.—A force of German marines attacked the Boxers in force near Kaumf killing two hundred. The German losses were slight.

Pekin, Oct. 25.—General Waldersee has sent a mixed expedition to the tombs of the ancient Ming dynasty. Kill 2,000 Villagers.

Hong Kong, Oct. 25.—A bloody engagement is reported from the Kwai-han district. Villagers attacked an army of rebels but were overwhelmed and two thousand of them were killed. The rebels afterward fired the village.

START A PECULIAR SCHOOL.

Normal School Regents Decide on a
New Departure in America.

Madison, Wis., Oct. 25.—The special committee of the board of regents today decided to open an institute at Oshkosh for the faculties of the normal schools of the state. It will be held the week beginning December 17 and will be conducted by State Superintendent L. D. Harvey. This action is important, inasmuch as it is the first school of its kind ever attempted in America. The institute will deal especially with the professional work in the school and will be for the purpose of unifying their labors and interests.

RAFT BREAKS THE RECORD.

Mississippi Tow Has Fifty-Two Cribbs
Worth \$625,000.

La Crosse, Wis., Oct. 25.—The largest lumber raft in the history of Mississippi navigation passed down today in tow of the Winona steamer John H. Douglas. It contained 9,360,000 feet of lumber besides a large quantity of laths and shingles, and a low estimate of its value is \$625,000. An ordinary raft is about fifteen cribs long. This was fifty-two long and eight wide.

Policeman Kills Burglar.

South Bend, Ind., Oct. 25.—Louis Jaquith, a burglar, was discovered this morning entering a store. Policeman Coper followed him when Jaquith shot him in the abdomen. The officer fired one shot killing the burglar. Coper's injury is serious.

PROSPERITY HOSTS GATHER AT FEAST

MARQUETTE CLUB'S HARVEST
HOME BANQUET.

Chairman Hanna Says the People Are
Ready to Give Their Verdict, Based
on Four Years' of Prosperity—More
Than 3,000 at the Tables—Food by
the Car Load.

Chicago, Oct. 25.—Three thousand and sixty men—eating their dinner together in one room, at the same time millionaire merchants, who helped clerks and mechanics sitting next to them to portions of turkey and slices of ginger bread; everybody dining off plates of American tin and making no remarks about the dishes; finally, speeches winding up with one by Senator Marcus Hanna—such was the great prosperity dinner which the Marquette club served last night in the new Coliseum.

Odor of Corn and Pumpkins.

Great yellow ears of corn, the kind that Illinois farmers hope to get forty cents for, waved over the dinner, from the middle of the tables, from the galleries, and from the speaker's stand. The odor of corn and pumpkins, and sheaves of wheat that were also part of the decorations, mixed with the roast beef and baked beans, and floated out through the windows into Wash avenue, where another crowd unable to get in sniffed it up.

Was a Prosperity Crowd.

Although at least 1,000 of the dinner guests were workmen from the factories and railroad yards, it was noticeable that they dressed in their best clothes. Most of them evidently quit work early enough to change from their working apparel. They were well dressed, and, in spite of good appetites, apparently every one of them had lunched from a full dinner pail at noon. It was a prosperity crowd as well as a prosperity dinner.

Food by the Carload.

There was food by the carload. There were no stingy portions for even the thinnest voter at the tables. Heaps of baked beans, that the Michigan farmers had been selling at \$2.50 a bushel, decorated the tables two feet apart. Big chunks of ginger bread, doughnuts fried in lard, instead of the cottolene of four years ago, Thanksgiving mince pie and California pears, and heaps of purple grapes made the boards of the tables bend. Some of the items of this great prosperity feast were:

Turkey.....	2,500 pounds
Roast beef.....	600 pounds
Boiled ham.....	400 pounds
Cornd beef.....	400 pounds
Pork and beans.....	300 pounds
Cheese.....	300 pounds
Wine.....	100 pounds
Potato salad.....	50 gallons
Pickles.....	30 gallons
Olives.....	50 gallons
Doughnuts.....	200 dozen
Wine.....	225 loaves
Brown bread.....	1,000 loaves
Pumpkin pie.....	200 loaves
Apple pies.....	400
Mince pies.....	200
Bananas.....	5 barrels
California pears.....	15 bunches
Grapes.....	40 boxes
Cider.....	120 baskets
Coffee.....	300 gallons

Men of Affairs Present.

Among the guests at this prosperity dinner were many of the best known merchants, manufacturers, lawyers, and jurists in Chicago. They were scattered all over the room just where the numbers of their tickets placed them. John D. Estabrook delivered the principal speech.

MOCK ELECTION AT STATE UNIVERSITY

Students and Teachers Are Taking a
Straw Vote—Football Practice
Now Held in Secret.

Madison, Wis., Oct. 25.—A straw vote is being taken today at the State University on the outcome of the presidential election. Political interest has been unusually active at the university this fall and as a consequence the student paper, the Daily Cardinal, is holding a mock election, intended to ascertain the political preferences of the students.

All male students as well as faculty members are eligible to vote and each voter is required to register when he casts his ballot. The result is awaited with great interest. Similar votes have been taken at Yale and other institutions and uniformly resulted in an overwhelming majority for the republican candidates.

For the last two days the football practice has been secret. This is taken to mean that Phil King has invented some new plays which he wishes to perfect in plenty of time to use in the critical game with Minnesota a week from the coming Saturday at Minneapolis. It is certain that the Grinnell game next Saturday is not of sufficient importance to warrant secret practice and the general impression is that the coaches are exercised over the poor prospect against Minnesota.

Remp, a new 180 pound candidate for center rush, has been playing on the second team this week and is showing up in good form.

The Grinnell game Saturday is looked upon as only stiff practice for the varsity team. Minnesota defeated

Grinnell last Saturday by a score of 26 to 0, and Coach King says he expects Wisconsin to do very much better than this.

REPORT OF PHILIPPINE TRADE.

Imports for Nine Months \$10,751,800,
Exports \$14,834,238.

Washington, D. C., Oct. 25.—The division of customs and insular affairs of the war department has made public a general statement covering the trade of the Philippine islands for the first nine months of the fiscal year ended June 30 last. The statement shows that the total of merchandise, gold and silver, imported during this period was \$16,751,800 and exported \$14,834,238. A marked decrease in imports from China is set forth. A similar falling off is noted in the imports from Spain. The exportation of Manila hemp was valued at \$8,106,340, of which the greater part went to the United Kingdom. The United States stands next in the list of countries taking this article. Raw sugar was exported from the islands to the value of \$1,815,148; tobacco and its manufactures, \$1,522,071, and copra, \$807,005. Of a total importation of \$4,015,049 worth of cotton and its manufactures the share from the United States was only \$15,134.

BULLET CHECKED BY A NOTE BOOK

Frank Warden, Deputy Game Warden
Fires at E. J. Roberts in a Dis-
pute Over Cards.

Madison, Wis., Oct. 25.—As the result of a night at the gambling table Frank Roberts, deputy state game warden, fired a shot into the abdomen of E. J. Roberts, a Waukesha stock buyer, in this city yesterday.

The shooting occurred on the sidewalk in front of the Capital house, where the two, in company with two prominent young men of the city, had spent the night playing poker. By a most fortunate circumstance the wound was prevented from being serious.

The bullet, which was from a 32-caliber revolver, struck the edge of an account book which Roberts carried in his inside coat pocket and gouged a groove along the edge less than the full width of the book, making a slight flesh wound.

Roberts is held in \$3,000 until Oct. 31.

DETECTIVES KNOW WHERE ALVORD IS

Every Indication Is That The Robbed
Bank Officials Have Him in Cus-
tody and Hidden.

New York, Oct. 25.—"Cornelius L. Alvord, Jr., is either in the custody of the Pinkerton men or he is where they can get him in a very short time."

This was the surprising statement made this morning by Chief of Police Foley of Mount Vernon, and the developments of the day tend to corroborate it.

There is no police hunt being made for Alvord. Neither the police of this city nor the police of Mount Vernon or any other city have been asked by the bank officials to find him. Every indication has pointed to the fact that the whereabouts of Alvord was no mystery to the bank people and the Pinkerton men.

It was thought for a time that the Pinkertons had the man cooped up in his own home, in Mount Vernon, and had him there since Sunday.

SHERMAN FUNERAL AT MANSFIELD, OHIO

President McKinley, Secretary Root,
and Other Notables Attend—City
Is Draped in Black.

Mansfield, O., Oct. 25.—The Sherman funeral train arrived at ten o'clock this morning. President McKinley's private car was attached at Canton. In the president's party were Secretary Root, Secretary Cortelyou, Judge Day and Judge Baldwin. The train was met at the depot by a vast crowd. The remains were escorted to Grace church where they lay in state. At two thirty o'clock services were conducted by the Rev. Mr. Putnam after which the procession proceeded to the cemetery. The buildings of the city are draped in black. Business was suspended. Thousands from other cities attended.

Racine Plans a Reception.

Racine, Wis., Oct. 25.—Robert M. La Follette will speak in this city Saturday evening. He will be given a grand reception. All of the marching clubs will meet at the train at Racine Junction and will escort the speaker through the leading streets to the auditorium.

Roberts Leaves Africa, Nov. 15.

London, Oct. 25.—General Roberts cables that he will leave for England on November 15. He reports several minor engagements, also one hundred and twenty-five prisoners and many cattle captured.

NOT SO BAD AS WAS REPORTED

Explosion of a Magazine at
Indian Head Early
This Morning.

THE GROUND TREMBLED

Admiral O'Neil Says That the
Early Accounts Were
Exaggerated.

THERE WAS NO LOSS OF LIFE

Washington, Oct. 25.—In a report this morning to Secretary Long Admiral O'Neil of the board of ordnance states that the accounts of the explosion at Indian Head are greatly exaggerated. He says it was a magazine belonging to the proving grounds that exploded and that no one was hurt.

Loss Will Reach \$25,000.

The damage to buildings and material will reach \$25,000. The brick magazine was twenty-five feet square and one hundred feet long. A wooden house where the shells were filled was destroyed by the explosion which started the magazine. The origin is a mystery.

In the two magazines were thirty thousand pounds of smokeless powder, eight thousand pounds of black powder, an unknown quantity of brown powder, fifty, six pound shells, fifty five, three pound shells and twenty five thousand rounds of small ammunition.

The fusillade was tremendous, but the effect of the explosion was local owing to the location.

Earth Quaked for Miles.

Washington, Oct. 25.—With a shock that made the earth quake for miles around the government magazine at Indian Head, the largest in the world, exploded at 11:30 o'clock last night. The small town of Glymont suffered severely from the concussion.

The shock was felt distinctly by the residents of Alexandria.

Meager reports of the calamity have been received, but these come from persons at small stations along the Baltimore and Potomac Road miles from the scene of the explosion.

Was a Terrifying Spectacle.

Their accounts of the terrifying spectacle tell only of the evidences of the disaster that they could feel and hear, the trembling of the ground beneath them, gusts of wind that made them feel as though a cyclone were sweeping over them, and great columns of flame leaping out of the darkness, by which illuminating they could see great clouds of smoke and a storm of flying projectiles.

Big Government Store House.

Indian Head is thirty-two miles from here, in Maryland. It is the proving grounds where the government tests all its new and most powerful guns and projectiles. For this purpose and for the supply of fortifications elsewhere a great store of powder, torpedoes and all sorts of projectiles is kept. It was the magazine at this point that was the most closely watched during the Spanish-American war.

MINERS DECISION EXPECTED TODAY

President Mitchell Will Issue Statement
That Is Likely to End the Coal
Strike.

Hazleton, Pa., Oct. 25.—President Mitchell of the United Mine Workers will issue a statement this afternoon which it is believed will mark practically the end of the strike. The officers of the union were in session here all of this morning considering a settlement on the terms that have now been offered by companies producing 75 per cent. of the anthracite output.

President Mitchell said this morning that his statement would define the position of the United Mine and Iron Workers and would indicate whether the strike is to be declared off immediately or is to be continued. The impression around headquarters is that it will declare that the miners have gained nearly all that they have been struggling for and that the fight should be ended.

UNCLE SAM WILL NOT BIND HIMSELF

Washington, Oct. 25.—The reply of the United States to the announcement by Great Britain and Germany of an agreement governing the future action in China will, it is understood, be sent by Hay today. While it does not make the United States a party to a formal alliance it makes known the acceptance by this government of the terms of that agreement without binding itself to take joint action with the powers in case any power endeavors to partition in China.

JANESVILLE HIGH SCHOOL.

The cup offered by Rev. R. C. Denison and others for the best class record in foot ball seems to be a great incentive toward activity among the classes. Those not directly interested in the game contribute towards the success of the contest by making their presence felt on all occasions. The interest taken by the players and spectators is considerable.

The manual training boys are making a filing case for the office of Supt. Mayne. It is of cedar and will be a credit to the four classes which are laboring co-jointly upon it.

The senior manual training class is working, upon steel forging hammers which they are finishing and tempering unaided.

The Junior class has taken upon itself the disposition of the Phoenix, which was published last year by the Rusk Lyceum. Hereafter the publication of this periodical will be a regular Junior effort—something to be anticipated by the two lower classes.

Last week Supt. Mayne gave the pupils of the high school two interesting talks on the Dewey School located in Chicago, where young people are taught the arts and sciences by actual manipulation in the various trades.

The Art class started under the supervision of Prof. Gaskins has come to stay. The interest is great and the results are gratifying to all. Three times per week they gather after school in the drawing room of the manual training department for an hour of practice in sketching from life. Several artistic pieces adorn the walls as the result of these helpful meetings.

The literary societies of the high school have taken up their winter's work. The Laurean with Miss H. Holt as critic and the Rusk Lyceum with Miss Dudley as critic.

The Rock county teachers' association will be held December 8 at Beloit this year and the Janesville teachers are making preparations for an interesting time. Miss E. May Clark of the city schools is chairman of the grammar section of this meeting which insures profitable work in that subject.

The high school teachers have taken up methodical study and discussion of Prof. James' "Psychology and Life's Ideals," which they expect to be helpful to them in their work of study and instruction.

The Junior Emerson class has been promised an interesting stereopticon evening with their instructor, Supt. Mayne, on the lives and events connected with Emerson and other famous literary men of Concord.

NOTES ON EDUCATION.

So many visitors to our progressive and up-to-date schools express the regret that they were "born too soon" to enjoy the advantages of a system of education which seeks to make it impossible for the pupil not to learn. During a recent visit to the high school our attention was called to the many appliances in the various departments which are being used so successfully for the training of the mental faculties towards the building up of men and women of character and ability in our community.

The various departments are so interesting and important they will be treated separately from time to time in the columns of this paper.

Sometimes the criticism is made that too much money is used by the Board of Education for the amusement of pupils, some people even going to the extent of calling laboratory appliances playthings with which the pupil whiles away the time which ought to be spent in study. To such critics the standard text book and teacher is one that succeeds in making the acquirement of information difficult.

Even some teachers rejoice in the dread pupils have of their subjects, measuring their success by the frown on the pupil's face during the assignment of a lesson. While we would not deem it wise for educator to seek to do the hard work of preparation for his scholar, he can accomplish more satisfactory results by making the learning of a number of facts and the training of the mind a pleasure, which always insures more work on the part of the pupil than the definite requirements laid down by so many pages of reading matter.

It is because more information can be acquired, with ease than with

difficulty, that the modern teacher makes use of appliances which were unheard of during the preceding generation.

But enough has been said in regard to the modern teacher, who we think needs no defense against the opinion of the progressive citizen. Look at the results as proof of the wisdom of modern ways and means, compared to those of our predecessors.

As we consider the magnificent structure erected as a shrine to Minerva, with its departments for the physical sciences, manual training, its library and gymnasium in the germ; we are struck with the wonderful capacity for growth and development in the individual, and consider that in this development we secure what is involved in the idea of education.

This implies the existence in man of latent germs, properties, capacities, which in process of disciplinary training need to be developed.

It has been said that "an oak is simply an educated acorn," and we may say of any living thing that it is educated when there has been unfolded and developed in completeness the germ principle lodged in it by its Creator.

A man's education physically is accomplished by drill of the muscles which tax them to their utmost, likewise mental strength is acquired by victories over hard problems in algebra or a difficult lesson in Xenophon. "A man is as many times a man as he has mastered studies," was once said by an educator whose fame is international.

Desirable as is physical strength its acquisition has an ulterior motive rather than the mere possession of so much strength. The same principle holds in regard to mental discipline. A study may be entered upon for the direct and sole object of intellectual culture; but as such study may awaken in the mind an interest all its own it will neither be prolonged or successful.

Any one of us would rather be the man who is than the man who knows the most, and so the object of education is not primarily to increase what a man knows, but to augment what a man is. As it is not the food that a man eats, that educates his physical being, but the food that is digested and assimilated, so it is the knowledge which has been transmitted into his own mental substance which makes a man what he is.

In this view of education it follows that the teacher is doing the most for his pupils who imparts not the most knowledge, but who in the knowledge he does impart does the most to wake up their minds and incite them to think for themselves.

Only that teacher is true to his mission which so trains and develops his classes that no marks of his own tools can be found upon them. He must discover their natural aptitudes, and so train them as to develop their natural gifts. He must be inspired by his knowledge and his inspiration must be contagious.

Before proceeding to the review of the various branches taught in a high school course, it will be to the point to make a distinction between the information and discipline result of the various studies.

All facts which relate to useful operations in the arts of life and serve to guide artificers and mechanics in their work, constitute a vast body of useful information which may be turned to account in furthering the pleasures of life, and at the same time the demonstrations and deductions may be wholly missed. Even in geometry the student may carry away with him the theorems as so many truths and miss their dependence and connection altogether.

While the mere facts of science turned to account in a political way constitute information; the method of science—the systematic construction of it—is treated as something distinct and superior.

Scientific research and observation imply training proper and it is for this disciplinary training we have our laboratories and workshops and teachers in connection with high school education.

NEW SCHOOL WILL NOT OPEN NOV. 1

It Will Be About the Middle of November Before Spring Brook School Is Ready.

The new public school house, located in the Spring Brook addition on Eastern avenue near McKee boulevard, will not be open for occupancy before the first of November as was the original intention. It will be nearer the middle of November before the edifice is in condition to receive pupils.

Work on the building is being rushed and when finished the structure will be a model one in every respect. The school is constructed of brick and is one story high. The style of architecture is simple and pleasing to the eye.

Two large rooms utilize the space. It is thought that but one of these rooms will be used at first. A cellar is under the entire building. An excellent furnace will furnish heat. The rooms are well utilized and lighted. The entire cost will be about \$2,500.

New maple sugar, absolutely pure, 14 cents pound at Dedrick Bros.

SPLENDID ENTERTAINMENTS

People's Lecture Course Better Than Ever This Year.

Never before has more real value been offered for the money than is this year offered by the People's Lecture Course. The talent is of the very highest order and every detail of this course has been arranged with the idea in view to give the public the best that money could buy. This course of entertainments is to gather up each year without the remotest idea of making money on the attractions and as a matter of fact the management has been obliged each year to figure carefully to make ends meet. When attractions having national reputations as have those composing the People's Lecture Course are offered at the exceedingly low price as these are the public stand by the enterprise and show their appreciation of its merit.

SIDE TRACK ALONG WEST BLUFF STREET

Railroad Surveyors Have Been Busily Engaged—Would Not Please Many Property Owners.

Present indications point strongly to the fact that the Chicago & Northwestern railway company are thinking seriously of placing a new spur track along the entire length of West Bluff street, extending from the intersection of Academy street to the L. B. Carle leaf tobacco warehouse on North River street.

With this new track the Northwestern company would be able to reach the cotton mills, Howe Bros' batting mill and the L. B. Carle leaf tobacco warehouse, which are now reached by the side tracks of the Chicago, Milwaukee & St. Paul company.

It is also said that a short track may be laid from West Bluff street south to High street to Fifield Bros. lumber yards. During the past few days railroad surveyors have been at work along West Bluff and High streets.

In case a track went along West Bluff street it would run in front of Trinity church and several private homes that border this thoroughfare. The local railroad officials deny that at present they have any intention of placing tracks on West Bluff and High streets.

Agent Gleason said yesterday: "I don't know of any intention of the Northwestern to run new side tracks along West Bluff or High streets. I don't believe the company intend to take any such steps."

SELECT OCONTO MAN TO MANAGE YARDS

Edward Links Has Arrived in the City to Look After New Spring Brook Enterprise.

Edward Links, an experienced lumberman from Oconto, Wis., has arrived in the city to act as foreman over the lumber yards established by the Janesville Lumber company in the Spring Brook addition.

Several cars loaded with posts, poles and shingles have arrived in this city from the northern pineries and have already been unloaded in Spring Brook.

This new industry in Spring Brook will cover ten acres of land located but a short distance from the Choate-Hollister Furniture factory.

The yards will be used as a storing point for posts, poles and shingles owned by the Janesville Lumber company. In time a saw mill will be erected, and several men given employment.

Alderman H. S. Gilkey, who is at the head of the enterprise, said: "In time we expect to have quite an industry. We have ten acres of land and will soon commence the erection of a mill."

LOCAL DELEGATION TO VISIT CHICAGO

Several Railroad Men and Others Will Participate in Grand Prosperity Parade Saturday.

From this city a good sized delegation will leave on Saturday morning for Chicago to participate in the great republican demonstration. Several of the local railroad men expect to make the trip on Friday as the railroad men have a grand demonstration at the Auditorium on the evening before. Mark Hanna and Senator John C. Spooner will address them and the railroad men will also participate in the parade the following day.

Chicago republicans will fire the big gun of the campaign on Saturday of this week with speechmaking and an immense parade. It is intended to eclipse the big sound money parade of four years ago if possible and every effort is being made to make the day a record breaker.

"Thou changest not—yet, I am always changing," said the substitute to Rocky Mountain Tea. Made by the Madison Medicine Company. 35 cents. Smith's pharmacy, kodak agents, opposite P. O.

*3.65 to Chicago and Return Via C. & N. W. R'y.

THINK IT WAS THE WORK OF EXPERTS

KOSHKONONG - EXCITED OVER RECENT BURGLARY.

Steps Taken to Prevent Future Occurrences of the Kind—Hunters Thick at Bingham's Place—Prospect Good for Improvement of Poor Roads—Social and Personal Notes.

Koshkonong, Oct. 24.—Great excitement prevails in this vicinity on account of the daring burglary committed Sunday night. The store and postoffice were broken into and a pair of No. 8 shoes were taken and the cash drawer robbed of a few cents. It is thought to be the work of experts as a ditch spade was found on the premises. Entrance was obtained by breaking a pane of glass and then prying the window open. Great care and precaution will be taken in the future so that the act will not be repeated. The broken window light being fastened with three new carpet tacks no entrance will be obtained there again.

Mrs. Mathilda Garrigus left today for an extended visit in Chicago and Washington, D. C. While in Chicago she will attend the wedding of her grand-daughter which event will take place November 7. One interesting feature of the wedding for Mrs. Garrigus will be the wearing of the same dress by the bride which she herself was married in forty-six years ago.

Mr. and Mrs. McCoy of Magnolia visited at Gordon Clark's last week. Visitors and hunters at Bingham's place last week were Ed. Bingham of Chicago, Stanley Rhoades of Kentucky, H. H. McKinney, Carter, Blunk and Wise of Janesville, and Frank Harrison of New York and Fred Gilbert of Iowa.

Miss Anna Mussehl of Fort Atkinson and Herbert Hathorn and Miss Gusie Gilkey of Janesville visited one day last week at M. B. Downings.

Masters Robert and Willie Traynor harvested a nice little crop of peanuts from a pound of seed planted the first of June.

We took a day off last week and visited the Otter Creek school and found that it was time well spent. A teacher who can keep such perfect order with a school of forty-two scholars in such a small school room and plan for so many different classes is a teacher worth having. This is Miss Livingston's third year in this school and so far has given perfect satisfaction.

Mr. and Mrs. David Barlass of Janesville spent Sunday at Fred Johnson's. Mr. Fisher of Brookhead was a visitor from Saturday until Sunday.

Mr. and Mrs. Henry Benson returned to their home at Maynard, Iowa, last week after a pleasant visit at Bingham's.

A. P. Lalk entertained hunters last week from Milwaukee, Chicago, Beloit and Janesville.

Mrs. R. Pfeiffer spent Wednesday in Fort Atkinson with relatives.

Willie Cullen, who was kicked by a horse last week, is getting along nicely, but is not able to be brought home yet.

Mrs. Truman Bassett has been a sufferer from neuralgia for the past two weeks.

Mrs. Dan Marquart and Mrs. Fern Seibert are also on the sick list.

Mrs. Box returned to her home last Friday after a pleasant visit in Janesville.

Two carloads of lumber arrived here last week for the new store and carpenters, from Fort Atkinson began work Monday.

John Paul, chairman of the town board of Milton township, has been in this vicinity looking over the roads with a view to improving the same.

BRIEF BITS OF COUNTY NEWS

Continued From page 2.

In no place in all the surrounding country are there such miserable roads as are found leading west and south from the station and unless something is done in the way of improvement the town is liable at any time to have a damage suit to settle.

Dr. O. Worm and Mr. Marsh of Whitewater spent part of last week at the McKee cottage at Bingham's. The railway company have treated the interior of the depot to a new coat of paint.

Dr. James Gibson of Janesville spent Wednesday duck shooting with M. B. Downing.

Alice and Eva Thompson of Milton Junction visited at Will Marquart's on Saturday and Sunday.

Stephen Ward and Fred Johnson each purchased two milch cows at the Grogan auction.

James Lamb of the firm of Lamb & Barless of Janesville was out Monday helping Fred Adams start up his new corn shredder.

PORTER.

Porter, Oct. 24.—J. Robertson is very ill.

W. Barrett is in Iowa visiting friends and looking at farm lands. Miss Gertrude Nichols and brother Andrew returned home on Wednesday after three weeks' visit in Iowa and Dakota.

Will Condon and family of Newville spent Sunday at G. W. Nichols.

Mrs. Frank Boss and little daughter Vera spent last week with the latter's grandparents in Emerald Grove.

A number of the farmers in this vicinity have purchased corn shredders this fall. Among them are Hayes and Raymond, Green, Hantke and Lynts, Casey, Leneau and Ford, M. L. O'Neil.

FOOTVILLE.

Footville, Oct. 24.—A. Wilbur Bloom has returned from Kansas City where he was sent as a delegate to the National convention of the Disciples of Christ and will fill his pulpit as usual next Lord's Day evening at 7:30. His subject will be "The Great Proclamation."

At the Center church he will speak upon the subject, "The religion that passeth away and that which abides."

Tells of New Lymph.

Chicago, Oct. 25.—Dr. Joseph R. Hawley reached home after attending the Missouri medical convention at Kansas City, where he made the declaration that in a lymph taken from goats a cure for senility, certain forms of paralysis, certain virulent blood diseases, tuberculosis, functional diseases of the nervous system and some forms of insanity had been found. Further the physician affirmed that severe tests, covering a long period and a large variety of cases, had proved the value of the lymph where diseases had not progressed too far.

Tests for American Coal.

Brussels, Oct. 25.—The gas works there are making an analysis of American coal for the purpose of ascertaining its availability for the manufacture of illuminating gas. Pending the investigation no American coal will be purchased. Even should the analysis prove satisfactory no coal will be purchased from the United States till next May, as the British and German operators have already filled all the important orders. The majority of the manufacturers, however, are anxious for American competition, thinking it will help to lower prices.

Warships Going to Smyrna.

Constantinople, Oct. 25.—An American naval squadron, consisting of the first-class battleship Kearsarge, the first-class cruiser Columbia and two other cruisers, is expected shortly at Smyrna. News of the approach of the squadron has seriously alarmed the sultan, who fears that this is intended as a naval demonstration to compel payment of the American demand for compensation for the destruction of the United States mission building at Hama.

HERE is a matter which touches your comfort. You want a clear, fair complexion. This is really nine-tenths a question of the treatment of the pores of the skin. Some toilet soaps are as nippy and keen as mustard. If you will only use the virtue you call your Judgment, it will tell you that any soap which leaves the hands habitually dry is robbing the skin of its natural oil. Free alkali is the robber's name. Ivory Soap has no free alkali. Try it! It floats.

ALVORD STEAL MYSTIFIES.

Methods of the New York Teller Puzzle Officers.

New York, Oct. 25.—The seal of secrecy was placed upon the lips of all the officials and employees of the First National bank by President Baker today, and it was announced that only Vice-President F. L. Hine would hereafter be the official spokesman in all matters pertaining to the Alvord defalcation. The directors held a conference, which lasted off and on during the time that the bank was open, and late in the afternoon the following statement was issued as to the result of the day's labor: "Alvord's false entries appear to have commenced about five years ago. One of his duties was to collect drafts and notes not payable through the clearing house—a considerable part of these notes being paid in cash. He appropriated a portion of this cash from time to time as opportunity offered before it was turned over to the money clerk. The discrepancy was concealed by adding to the item of 'exchange for the clearing house' on the note teller's balance book an amount equal to the sum of abstractions. Until his recent disappearance Alvord had not been absent from the bank during one business day this year. He did not take his usual vacation last summer, requesting that instead he might take off a month next winter for a trip to California."

Sheriff Rescues a Girl.

St. Louis, Oct. 25.—Miss Lizzie Murray, of St. Louis, went out to Clayton to lodge a complaint with the sheriff. After she had started back home on the tracks of the St. Louis, Kansas City and Colorado railroad the sheriff was informed that she had been kidnapped and had fainted just before meeting him. He followed the woman, and half a mile from Clayton found her lying in a faint across the rails. Sheriff Kerch just succeeded in removing the unconscious woman from her perilous position as a westbound train thundered by.

Deserts the French Shore.

New York, Oct. 25.—The queen did not pay her customary visit to the south of France last winter, and the shopkeepers of the French Riviera suffered financially in consequence, says the London correspondent of the Tribune.

They will not be pleased, therefore, to know that her majesty proposes to desert the French for the Italian Mediterranean shore in the forthcoming season.

Is Killed by a Sentinel.

New York, Oct. 25.—John Sollenon, a young Swede, was shot and killed by one of the sentinels on guard duty at Fort Hancock, Sandy Hook. The Swede was walking along the beach near the fort, and was mistaken for a private who had escaped from the fort. The Swede was challenged by the sentinel the second time, but refused to halt, and was shot down.

Seal Catch Was Light.

Victoria, B. C., Oct. 25.—During the season just closed thirty-four sealing schooners took 16,000 skins in Bering Sea, which is 8,000 less than taken by twenty-five schooners last year. The spring schooners took 16,517 skins on the coast, bringing the total for the season up to 32,517. Only fifty-five branded seals were killed in Bering Sea.

Leaves Money to Servants.

London, Oct. 25.—Gen. Lord Kerr made the following bequests in his will: One hundred dollars for a crossing sweeper, \$7,500 for his valet, \$2,500 for his housekeeper, \$1,250 for his housemaid, and \$2,500 for the widow of his late groom.

Newport News, Va., Oct. 25.—Rev. Dr. J. N. Craig of Atlanta dropped dead in the pulpit this morning while addressing the Presbyterian synod of Virginia, now in session here.

Boy Takes Morphine.

Bedford, Ind., Oct. 25.—Carl King, 17 years old, who had a fight with his brother, became despondent over the matter and bought seventy cents worth of morphine. He took the whole quantity and was found unconscious. He died during the night.

Rumor of a Revolution.

Buenos Ayres, Oct. 25.—It is rumored here that the Brazilian fleet, profiting by President Campos Salles' absence, will begin a revolution in order to re-establish a monarchy. There is no confirmation of the rumor.

To Doubt This

Is to Disbelieve the Evidence of Your Own Senses.

It's Janesville proof for Janesville people. It's local endorsement for local readers. It will stand the most rigid investigation.

Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching was sure to manifest itself. If I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville, I procured Doan's Kidney Pills at the People's Drug Co.'s store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

For sale by all dealers. Price, 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

PROSPERITY IN CUBA.

Two short years have produced a wonderful change in the island of Cuba. From a state of starvation and misery to one of plenty and prosperity the island has been transformed almost in a day. Governor Wood, the governor general of the island, who is now in Washington, gives glowing accounts of existing conditions. He says that the government is not only self supporting but out of debt, with a balance of \$1,000,000 in the treasury. The sugar and tobacco crop this year is worth \$100,000,000. Three thousand schools have been established with 250,000 scholars in attendance. Seven hundred miles of railroad have been built, and many internal improvements. Hunger is a thing of the past and destitution is rapidly disappearing.

The city of Havana, with a population of 300,000, is spending \$9,000,000 on her streets and sewerage system. Yellow fever is no longer an epidemic, because of improved sanitary conditions.

This wonderful change in so short a period represents the difference between Spanish rule and oppression, and American protection and encouragement, the difference between heathen darkness and the bright light of christian civilization.

And yet there are some people who go around with dire forebodings, bewailing the fate of Cuba, the great calamity that threatens Porto Rico, and the rank injustice of our national policy in the Philippines. These people talk about imperialism and expansion, a pair of bugbears so wild and woolly, that they absorb the attention of the man who never sees beyond the end of his nose.

These scare crows that obstruct the vision of this class of citizens cause them to lose faith in the destiny of a nation whose mission is something broader than mere existence. Cuba at a single stride has advanced a hundred years by the simple aid of a friendly hand. Porto Rico, Hawaii and the Philippines are under the protection of a flag that has always been a symbol of liberty and will continue to be in spite of traitors and foes without.

Aguinaldo may be a second George Washington; he may possess an ambition to see his friend Bryan at the head of this great nation, but his ambition will not be realized this year. He may become a plain, every-day citizen when he ceases to be a rebel and swears allegiance to the flag that offers him and his benighted race protection.

If the men who are talking imperialism will study conditions in Cuba and then cast a glance into the future they will discover dimly outlined to their impaired vision a pleasing future. If they will watch with a little patience its development they will be rewarded some bright morning by discovering "a nation born in a day," a nation redeemed from barbarism to civilization. When this transformation scene occurs the Stars and Stripes will be plainly visible in the foreground and American intelligence and statesmanship will be recognized as still guiding the ship of state.

THE NEXT GOVERNOR.

Mr. LaFollette will be greeted with an enthusiastic audience tonight. People have a desire to see the next governor of the state and they recognize the fact without regard to party that Mr. LaFollette is the man. It is well to remember, even in the heat of a campaign, that after the smoke has cleared away the man who is elected becomes the chief executive of all the people. Mr. LaFollette is broad enough to fill this high office with credit to himself and with honor to the state. He will be the governor, not only in name, but in fact, possessing the intelligence, ability and statesmanship to direct the affairs of the state so successfully that the commonwealth will continue to enjoy an enviable reputation among the states of the nation.

The progress of state government has long been watched with interest by neighboring states. In the matter of intelligent and conservative administration, Wisconsin is today the peer of many states.

Mr. LaFollette succeeds to a clean administration. Governor Scofield retires from office with a clean record and enjoying the well earned reputation of a practical business governor. The state has profited by his hard common sense and will continue to profit by the results of his work for years to come. Mr. LaFollette inherits a goodly heritage and in keeping with the progress of the age, he will be free to go on with the work of development and improvement. That his hands will be upheld by the people of the state he may be fully assured. The men who shout and the men who work more quietly will be with him. Both state and governor belong to the people and every law abiding citizen is interested in a wholesome administration.

The Rev. Dr. Savage and the Rev.

Dr. Hillis, two noted New York divines, took occasion last Sunday to denounce from their pulpits the dishonesty and fallacy of Bryanism. Dr. Savage defended an honest dollar, and Dr. Hillis accused Mr. Bryan of attempting to array the rich against the poor, thus stirring up internal strife. The pulpits of the land can well afford to denounce Bryanistic doctrine.

Don M. Dickenson, postmaster general during the Cleveland administration, is supporting McKinley this year. He says that Bryan is preaching the gospel of hate and doing great injury to the country by arraying class against class. Mr. Dickenson also regards Mr. Bryan as unsound on the question of finance.

Senator Pettigrew, of South Dakota, who disgraced himself and humiliated the party that elected him by deserting it, will be retired to private life at the close of his term. This is a poor country for Judases.

Some people enjoy poor health, others endure prosperity under protest.

RAISED NECESSARY
AMOUNT OF CASH

George Cram, Who Was Here Today From Beloit, Reports Fair Proceedings.

George Cram, the well-known Beloit shoe merchant was in the city today on business. Mr. Cram stated that at a meeting of the business men held in Beloit last evening the sum of \$7,000 was pledged for the purpose of erecting buildings and making the necessary improvements for the holding of a county fair and a horse show in the Line City next year.

The fair grounds will comprise several acres on the Illinois side and close to the city and will be permanent. Mr. Morgan, the Chicago millionaire who has recently purchased an extensive tract of land near Beloit, is one of those interested in the coming undertaking.

PUPILS DEBATE AT
SCHOOL FOR BLIND

On Points the Debate Was So Close the Judges Brought in Majority and Minority Reports.

The pupils at the State School for the Blind held a debate last night at the state school, the subject being one of political interest. The debate was arranged entirely by the pupils and showed that a great deal of time and thought had been spent in its preparation.

The question chosen was "Resolved, that the reelection of President McKinley will be more beneficial to the country than the election of W. J. Bryan." The affirmative speakers were Harry McChesney, Oscar Simons and Chester Parish. The negative was represented by Terrance Knight, Dan Roberts and Alfred Ferstel. The judges were Justice Jesse Earle, J. C. Kline and C. P. Beers. The debate was so close that the judges were unable to agree so a majority and minority report was made.

At the close of the debate Supt. H. F. Bliss made a political speech.

CHURCH WOMEN
FEAST THE CHOIR

The ladies of the Presbyterian church served an oyster supper last evening in the basement dining room. The supper was one of the best patronized of any given by the Presbyterian ladies. One especially long table was reserved for the large chorus choir, who were given a complimentary supper by the ladies. Covers were laid for twenty five members, and fully that number responded. The table was decorated with carnations, and their fragrance filled every nook and cranny of the dining room. After the supper the choir members adjourned to the parlors, where a social hour was spent.

Erect Form
Corsets.

The effects of straight front Corsets are decided and are made up of curves that produce the figure so much admired. The low waist line in front, the full distended busts, the clearly defined back and smooth hips, add grace and dignity to the figure, while the shape of the garment adds in securing the erect carriage. We carry in this popular Corset the "V. B." Corset, white, drab and black, at \$1.00; also two numbers of the "P. N." Corset at \$1.00 and \$1.50.

Black
Underskirts.

We show a new line of the heavy weight cotton Underskirts and are having a lively sale on the various styles. We show one special number at \$1.00 that is great value; others at \$1.50, \$2.00, \$2.50, \$3.00.

ROCK COUNTY TO GREET LA FOLLETTE TONIGHT

**Torch Light Parade Accompanied by Three Bands
Will Escort the Candidate to the Opera
House—The Line of March and
Other Arrangements.**

This is the night that everybody will come out and help swell the crowd that will pay its respects to the republican national administration and to Robert M. La Follette, the republican nominee for governor of the state. It promises to be the biggest demonstration of the campaign.

All republicans are requested to meet at the building south of the West Side engine house and get torches at seven o'clock.

The Young Men's Republican club that has in charge the reception of Mr. La Follette and the procession,

have been made to accommodate the largest crowd that was ever inside its doors. Over two hundred chairs have been placed upon the stage and the Edgerton delegation with their band will occupy seats there. There will also be seats reserved for the La Follette party and prominent members of the local republican party.

Seated on the Platform.
Among those who will have reserved seats on the platform are Chairman T. S. Nolan and W. A. Jackson of the Republican county committee, W. O. Newhouse, president; F. L. Clemmons,

have spared no pains to make a success of it and have provided four hundred torches and enough tin horns for shrill toots.

Crowds Pouring Into Town.
At short intervals in the parade red fire will be burned and countless Roman candles will give a variegated color to the night sky.

The day is perfect and great crowds from the surrounding towns and farms are already coming into the city all ready to yell themselves hoarse.

The evening's demonstration will begin immediately upon the arrival of the special train carrying Mr. La Follette and party which is expected here shortly before six o'clock.

One hour later the republican marchers will form in line on River street just north of Milwaukee street and will march north to Wall, west on Wall to Academy, south on Academy to Milwaukee, east on Milwaukee to Main, south on Main to South Third, where a counter-march will be made and then north on Main to Milwaukee, east on Milwaukee to the Opera House.

As Edgerton is to bring a large delegation it is to have the first place in the procession. The delegation from there will be headed by the Edgerton band.

The procession will form as follows:

Line UP of Parade.
Mounted Marshals E. D. Roberts, Dr. James Gibson
W. H. Appleby
Edgerton Cornet Band,
Edgerton Marchers,
Imperial Band,
Janesville Republican Club,
G. A. R. Drum Corps,
Janesville Marchers.

TRAIN YOUNG MEN FOR THE STUMP

**Social Club of the Congregational
Church Holds Its First Meeting
Next Monday Night.**

The Social Club of the Congregational church have issued invitations to the young men of the church. The object of this is to form a society among the young men similar to the Twilight club. As many of the practical speakers have stated this is an age of young men and nothing is more fitting than the young men should have a chance to meet and discuss the questions of the day.

Prof. D. D. Mayne has charge of the intellectual part of the enterprise and it is his plan to have three or four leaders appointed for each meeting to open the discussion and leave it to be carried out extemporaneously.

The first meeting will be held next Monday, Oct. 29 at 6:30 o'clock and supper will be served by the ladies. The subject for discussion is "The Possibility of Peace Among Nations." Several speakers have been chosen and a good time is expected.

A marriage license was issued this afternoon to Matt M. Ryan and Miss Lillian Micks, both of this city.

ENGINE SLAUGHTERS HOLLORAN GEES

**Switch Locomotive on St. Paul Road
Did Cruel Work Yesterday
Afternoon.**

Yesterday afternoon at 4 o'clock a switch engine on the Chicago, Milwaukee & St. Paul railroad, dealt death to a flock of valuable geese, the property of Mrs. Michael Holloran, who resides at 64 Railroad street. The killing took place on North Main street near Fourth avenue.

For a time feathers and blood filled the air. The geese were on the track and refused to vacate in spite of the fact that several shrill whistle blasts were sounded.

Mrs. Holloran says that the railroad officials were careless, and that she will see to it that they settle for the death of her pets. The geese were blooded stock, and were valued at a snug little sum.

County Clerk F. A. Starr issued marriage licenses to day to the following people: John A. Webber to Kittie F. Dalton, both of Janesville; Thompson C. Smith to Lillian W. Skinner, both of Beloit; and Lloyd F. Coon to Nellie B. Crandall, both of Milton.

ERECT NEW BREWERY HERE NEXT SPRING

**ROBINSON BREWING CO. WILL
BE THE BUILDERS.**

The New Structure Will Cost in the Neighborhood of \$5,000 and Will Be Located Near the River—The Company Has Been Recently Incorporated.

The N. B. Robinson Brewing Company of this city expect to commence in the spring the erection of a new brewing plant in Janesville that will cost in the neighborhood of \$5,000. This new structure will be a model one in every respect and will be equipped with all the latest machinery used in the manufacture of ale.

As yet no definite location has been decided upon but it will be near the river so that the company can secure ice and have perfect sewerage. The N. B. Robinson Brewing Company was but recently incorporated with the following officers:

Frank P. Williams, President and Treasurer.
N. B. Robinson, Vice President and Secretary.

The capital stock is \$6,000. In speaking of the new brewery Mr. Williams said this morning:

"Our trade has increased so of late that we must have a larger and more modern brewery. The new building will be located near the river so that we can secure plenty of ice and also sewerage. The new plant will cost us about \$5,000. Work on its construction will commence in the spring."

ROCK COUNTY COUPLE WED AT BELVIDERE

**BRIDE AND GROOM ARE WELL
KNOWN IN JANESVILLE.**

Judge De Wolf of Belvidere Was the Officiating Clergyman—The Couple Make Their Home in City of Evansville—Mabel Hall and Norman Blichler, Both of Evansville.

In the city of Belvidere, Illinois, Tuesday evening, cupid celebrated a victory at the county clerk's office and Judge DeWolf was the officiating authority who served the little god of love in uniting the hearts and hands of two young people.

The bride pair was Miss Mabel Hall and Norman Blichler, both of Evansville, Wis. The bride is the daughter of Col. Hall, the well known circus owner who has been in Janesville with his show. Miss Hall usually rides a pony in the streets parades. The Belvidere brand of matrimonial knots is such that the happy pair should never know a cloud of sorrow.

The bride and groom are both well known in Janesville where they have a host of warm friends.

SOCIETY EVENTS WILL BE NUMEROUS

**MRS. H. G. CARTER ENTERTAINS
LADIES AT EUCRE.**

Function Took Place This Afternoon at Her Pleasant Street Home—Eastern Star Party—Other Social Happenings Scheduled to Take Place in the Near Future.

Numerous society events are scheduled for Janesville for the coming winter season. These events will include several large dancing parties. This afternoon at the Pleasant street home of Mrs. H. G. Carter were entertained members of the Ladies Afternoon Euchre club. This being the first meeting of the club this season the guests were invited to tea.

GIVES WIDE CHOICE FOR THE ELECTORS

**BIG BALLOT OFFERED AT THE
COMING ELECTION.**

Six Tickets for the Voters—Five National Tickets Failed to Get on the List in This State—Some of the Parties and the Candidates They Present.

Secretary of State Froelich has completed the form of official ballot to be voted at the election November 6. It is a big one. There are untold opportunities to exercise the right of suffrage and the elector who can't find one party to tie to is certainly hard to please. There are national parties on the ballot that you never heard of before and will never hear of again.

The chances are that twenty minutes after you have cast your ballot you will not be able to make affidavit with any degree of certainty as to the number of parties represented on the ballot.

For instance few electors have realized that they will have six sets of presidential electors to choose from, but there are that many on the ballot. Even at that we are being cheated out of five chances, for in this country there are eleven national tickets. Five of them evidently did not certify their tickets to the secretary or they would have been represented. The following are the parties in the order that they appear on the ballot and the presidential candidates:

Republican party, William McKinley.

Democratic party, William J. Bryan.

Prohibition party, John G. Woolley.

Socialist labor party, Joseph F. Maloney.

Social democratic party, Eugene V. Debs.

Out of the eight tickets the reader could possibly recall three candidates for governor which goes to prove the oft repeated assertion "how little we know." The candidates for governor on the ticket follow:

Republican, Robert M. La Follette.

Democratic, Louis C. Bohmrich.

Prohibition, J. B. Smith.

Social democrat, Howard B. Tuttle.

Social labor, Frank R. Wike.

Three others blank.

The exact dimensions of the ticket to be used here are not known, owing to the fact that on the sample sent out from the office of the secretary of state only the national and state tickets appear. It will be about 19x24 however, but this is nothing near so large as it will be in some senatorial districts. On the sample ballot there are 271 names.

HURTS BUSINESS.

Bryanism Is Delaying the Filling of Orders by Manufacturers.

Taking No Chances on the Possibility of the Election of the Nebraskan.

Several Plants Shut Down and Others Will Be in the Event of Such a Calamity.

Large Buyers Awaiting Result of the Election Before Placing Orders.

That the election of Mr. Bryan would be followed by a panic and a period of fearful business depression is amply shown by the character of the orders that are being received by manufacturing institutions of the country. Nearly all of the larger orders have inserted in them clauses to the effect that the order is to be canceled in the event of Bryan's election. Instances without number can be given where these "Bryan" clauses have been accepted by the producing classes, because buyers are in no mood to take chances on the conditions that would exist after the 6th of November if the Nebraskan is successful.

In this line reference is made to two or three contracts of the sort named in different sections of the country, showing that the feeling is not local by any means, but is widespread.

The construction of a big rolling mill to be established at Hammond, Ind., is being held up until after election by John D. Briggs, president of the Ohio Rolling Mill company, and George A. Carney, of Findlay, O. The mill is to cost about \$500,000, and Mr. Carney is now in Pittsburgh buying the necessary machinery, but in all of his machinery contracts the "Bryan clause" is inserted. In other words, no mill will be erected should Bryan succeed.

Then there is the Marion flint glass works at Marion, Ind., which is about finishing up the orders that it has in hand, and will close down should Bryan be elected, being unable to get any orders free from that clause.

At Pittsburgh the largest iron and steel working concerns have heavy conditional orders, among them Jones & Laughlin, Chalmers & Co., Morehead Bros., Sable iron works, National tube works and the various Carnegie plants. These immense concerns will all close down or work on short time if Bryan is elected, as they are unable to get orders to carry them along.

Katz Bros., the wealthy brewers of Paterson, N. J., are negotiating for the purchase of the Rogers locomotive works, Mr. Rogers having announced some time ago that he had made enough money and would retire. The sale would have been made months ago but for the fear of Bryanism.

Studebaker Bros., the wagon makers, whose business extends all over the country, have placed an order for a million feet of hardwood with W. M. Ritter, of Columbus, O. The wagon men will take a hundred thousand feet on the 1st of November, but the other 900,000 feet are not to be delivered in case Mr. Bryan is elected. A furniture manufacturer of Grand Rapids, Mich., has placed an order with the same dealer, but the lumber is only to be delivered in case Mr. McKinley is reelected.

The Bessemer steel plant and the rail mill of the Illinois steel works at South Chicago have been closed down for repairs and an overhauling. The mills employ about 2,500 men, and President Buffington, of the company, says: "We have few orders ahead and none for immediate delivery. The time for reopening will depend entirely on how the orders for rails come in. The steel trade in general has been hesitating for the past few weeks. Often at this season of the year we have orders ahead to keep us busy for seven or eight months, but this year it is very different. Our largest customers in all lines tell us that they don't care to place any orders until they know what the result of the election will be."

T. A. Gillespie and other Pittsburgh capitalists have a project on foot to install an electric power plant at Massena, N. Y., that will develop 150,000 horse power. They will not go ahead unless Mr. Bryan is defeated. For the present the proposition is held up.

Bryan Never a Democrat.
F. B. Kirtz, of the Stacy Wholesale Fruit company, of Fargo, N. D., is one of the latest democrats to abandon Bryanism and announce that he intends to vote for McKinley and Roosevelt. He says:

"In the first place, a man who will attempt to stand on the platform of three parties, isn't going to keep the promises of any of them. He is not working for principle, but for votes. The republican party promised us prosperity and sound money, and we have both. Mr. Bryan isn't a democrat anyway, and never has been. I do not like his advisers, Croker, Altgeld and Tillman."

Faithful to the Trust.
"The Philippines, like Cuba and Porto Rico, were entrusted to our hands by the war, and to that great trust, under the Providence of God and in the name of human progress and civilization, we are committed."—William McKinley.
